THE MARKET SEES

Slovenian league left-back

"Just an athletic profile"

Domestic league starter

24 years old, early career

B360 SEES

Two-way engine — 91st pctl. sprint count, 94th pctl. support runs

Structured, disciplined defender — 85th percentile direct disruption

Constant attacking support — 88th percentile overlap runs

Already sustaining elite two-way output at senior level

WHY THIS DOESN'T ADD UP

01

91st percentile sprint count

02

88th percentile sprint distance

03

85th percentile acceleration to high-speed running

04

94th percentile support runs

05

85th percentile direct disruption

06

24 years old — development still ahead

THE EVIDENCE

The Engine Is the Story — Defence and Attack Prove It

Slovenian 1. SNL 2025/26 · vs. other full-backs · Data: SkillCorner

TWO-WAY ENGINE

Sprint count 91st

Sprint distance 88th

Acceleration to high-speed running 85th

DEFENSIVE RELIABILITY

Direct disruption 85th

Pressing engagements 82nd

Counter-press engagements 76th

ATTACKING SUPPORT

Support runs 94th

Overlap runs 88th

Underlap runs 61st

Development focus: increasing final-third impact after arriving in advanced positions. The physical platform already enables repeated attacking involvement; the next step is converting those repeated attacking movements into greater end product.

IDEAL ROLE

Two-Way Left-Back

THE OPPORTUNITY

A Two-Way Engine at Left-Back. Available Now.

IDEAL FOR CLUBS THAT

- Play with high full-back involvement in both boxes
- Value repeatable high-intensity actions over 90 minutes
- Need defensive structure without sacrificing tempo
- Build attacking width through overlapping full-backs

MARKET INSIGHT

Modern recruitment increasingly prioritises repeatability over isolated top speed. Urbančič's profile combines that repeatability with defensive reliability.

WHY NOW

Already sustaining starter-level physical output

Elite repeat-sprint profile

24 years old — development upside

Immediate contributor

Two-way output already at starter level

B360 ASSESSMENT

Jošt Urbančič is not defined by isolated explosive actions. His value lies in sustaining high-intensity performance throughout the match, allowing him to contribute consistently in both defensive and attacking phases without sacrificing structural stability.

THE ARGUMENT IN ONE SENTENCE

A low-risk opportunity to acquire one of the market's most complete two-way running full-backs before his physical profile is fully reflected in his market value.
