B360 ASSESSMENT

Tony Miettinen is not a passive defender waiting for situations to develop. He actively creates defensive moments through elite engagement, pressing, and physical output. Clubs seeking to increase defensive intensity immediately are acquiring a profile that has already translated successfully across multiple leagues, rather than one dependent on a single outstanding season.

THE ARGUMENT IN ONE SENTENCE

A low-risk opportunity to acquire one of Scandinavia's most active defensive profiles before his market value reflects the consistency of his performances across three first divisions.
